

# Christmas Candy I

## Fabric requirements for one block:

One fat eighth of background fabric  
8 Charm Pre-cuts and scraps or all scraps.

## Cutting:

### From Scraps cut:

8 – 4”x 4” Square A  
8 to 16 – 1”x 4” Strip B

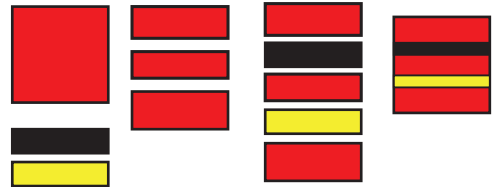

### From Background fabric cut:

4 – 3 ½” x 6 ½” Rectangle C

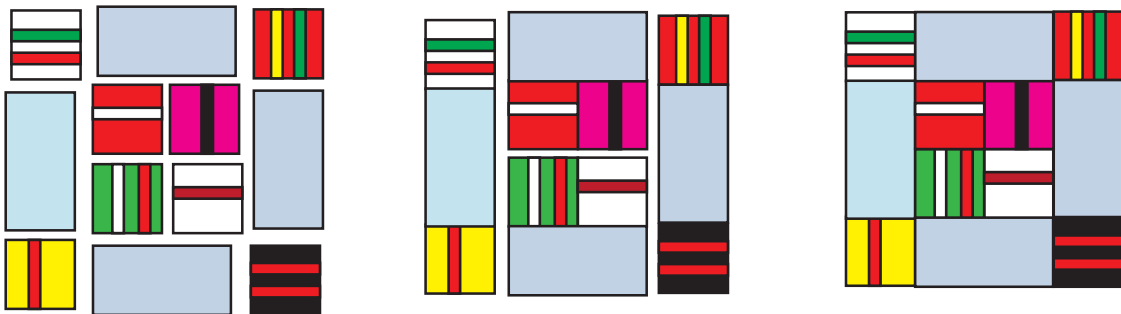

## Sewing:

1. Cut a Square A across once or twice (as shown) and sew one or two contrasting Strip B's in between as indicated. *Make sure cuts are at least 1" away from the edges and ¾" away from each other.*
2. Trim "candy" block to 3 ½" x 3 ½" square. Make 8 of these, varying the space between strips and number of strips in each block.
3. Sew the candy blocks and the Rectangle C's varying the orientation of the strips (*vertical or horizontal*) as shown:

*Mix prints and solids in abandon in this project. Also remember they don't just have to be Christmas colors or fabrics for the same holiday feel.*

Pretty easy, huh? Here is a layout option for you to get the full effect of the block in action
